Sankalp Boudhh

Frontend Developer · React.js · UI Engineering
+91 9039 217 667 | sankalpboudhh@gmail.com | GitHub | LinkedIn | Portfolio | Bengaluru, India

PROFESSIONAL SUMMARY

Frontend Developer with 4 years of experience building responsive, high-performance web applications for enterprise clients. Proficient in React.js, JavaScript, Redux, and REST API integration. Track record of delivering reusable component libraries and UI performance improvements in production environments. Former founder with proven ownership mindset — able to lead, ship, and iterate fast.

TECHNICAL SKILLS

Core: React.js, JavaScript (ES6+), HTML5, CSS3, JSP
State & Styling: Redux, Bootstrap, Material UI, Responsive Design
Backend & APIs: Node.js, Express.js, MongoDB, REST APIs, JWT Authentication
Tools & Practices: Git, Postman, Agile, Code Review, Reusable Component Architecture
Other: Python, Linux, Windows

PROFESSIONAL EXPERIENCE

Software Engineer – UI Developer
Dec 2022 – Present

Izmo Ltd. · Bengaluru | Promoted from Associate Software Engineer, Apr 2026

- Engineered and maintained responsive UI modules for an enterprise car dealership platform, supporting inventory management and appointment scheduling workflows used across 800+ dealerships.
- Migrated 15+ legacy JSP views to modular React.js components, reducing code duplication by 40% and cutting cross-team feature delivery time by 25%.
- Developed a reusable component library of 20+ UI elements, cutting development time for new features by 30%.
- Optimized 3+ critical frontend modules, reducing inventory list render time by 35% and improving overall page load performance for 800+ dealership users.
- Collaborated with a 4-member backend team on 10+ REST API integrations, resolving data-flow bottlenecks that improved response times by 20% in high-traffic dealership modules.

Fellowship & Software Development Trainee
Aug 2021 – Dec 2022

Crio.Do · Bengaluru

- Delivered 3 production-grade projects through an intensive full-stack fellowship:
  - **QKart** — E-commerce platform crafted with React.js, Node.js, and MongoDB with cart, checkout, and search functionality.
  - **QTrip** — Travel booking app using React.js, REST APIs, and Bootstrap, featuring interactive itinerary pages with real-time data rendering.
  - **XBoard** — Live news portal powered by RSS feed APIs with category filtering.
- Applied Git workflow, unit testing, API-based development, and agile sprint cycles throughout all projects.

Self-Directed Learning · Career Transition
Jul 2020 – Aug 2021

Bengaluru

- Relocated to Bengaluru after closing Dosa Fusion and taught myself programming from online resources, starting with Python and completing the Python for Everybody certification.

Founder & Head Operator
Feb 2015 – Mar 2020

Dosa Fusion · Bhopal

- Researched recipes and learned to cook through 2014–15 before launching in Feb 2015.
- Scaled a bootstrapped food business from a roadside stall to 3 outlets with a team of 20+.
- Won 'Best Breakfast in Bhopal' by Zomato (2019) and 'Hawker of the Day' by IHM — demonstrating ability to build and grow a product-market fit. [Media Coverage]
- Established operational processes, managed hiring, and drove consistent revenue growth across 3 outlets.
- Closed operations in Mar 2020 due to the COVID-19 lockdown and wound down the business by Jul 2020.

EDUCATION

B.E. in Computer Science
2010 – 2014

NRI Institute of Information Science & Technology · Bhopal
Left before completing the degree to pursue entrepreneurship.
